Wisconsin Pyramid Model Leadership Teams Purpose and Responsibilities

<p>Core Team: Smaller group more closely connected to procedural decision making</p>	<p>State Leadership Advisory: Larger group of people/organizations invested in the vision of the Pyramid Model Initiative</p>
<ul style="list-style-type: none"> Attend and actively participate in quarterly meetings of the group Inform procedures for bringing on approved trainers/coaches/sites/communities Develop an action plan by prioritizing activities based on the annual Benchmarks of Quality rating and monitor progress of the plan Develop processes and systems for data based decision making about fidelity of implementation Advocate for and determine appropriate funding to cover activities and staffing Advise and support state coordinators in making key decisions Inform Pyramid Model advisory group of accomplishments and outcomes 	<ul style="list-style-type: none"> Attend an annual State Leadership Advisory meeting, review updates from the quarterly Core Team minutes and inquire and participate in Pyramid Model updates at state wide meetings Develop and sustain infrastructure to support program wide implementation; Disseminate information about the Pyramid Model priorities, actions, and accomplishments, including messaging to families; Provide capacity for professional development to cross systems professionals in evidence based practices; Share resources that support the work of the Pyramid Model action plan; Understand and integrate practices promoted by the Pyramid Model into state infrastructure

<ul style="list-style-type: none"> Meets quarterly for 2 ½ hours, typically in morning in Jan, April, July, October Joins the Advisory meeting in the afternoon in April and October 	<ul style="list-style-type: none"> Meets annually in April and October in a joint Core and Advisory Team meeting
--	---

WISCONSIN PYRAMID MODEL VISION:

Each and every Wisconsin infant and young child will experience nurturing and authentic relationships within engaging, culturally responsive environments that honor diversity in all its forms in order to ensure healthy social and emotional development.

WISCONSIN PYRAMID MODEL MISSION

We advocate, train and coach to elevate awareness, honor relationships and support adults to apply skills and strategies that ensure equitable outcomes for infants, young children and their families through intentional implementation of the Wisconsin Pyramid Model in programs and communities.

September 2021- updated July 2021 Mission and Vision

Our agenda- Changes OK?

captures your hopes or feelings
as we begin 2023?

State Leadership Team Benchmarks of Quality by Time Period

In Place Emerging/Needs Improvement Not In Place

BoQ items that are not in place/ partially in place

6. The SLT **evaluates each meeting** and uses the data to improve meetings

19. **Funding sources** to cover activities **for at least three years** are identified including additional Program Coaches and sites

23. A written **awareness and marketing plan** is developed including a presentation to policy makers, current and potential funders and is used to recruit programs and individuals (e.g. presentation based on annual data and report).

27. The SLT develops **written communication protocols for regular feedback** from staff who are charged with implementing the PMP as well as the Program **Coaches, demonstration sites, implementation sites, and communities**

28. The State Leadership Team has **representation from family organizations**.

29. The SLT makes training opportunities related to the PMPs available for families. **(PIWI)**

33. The SLT has **recruitment and selection process and MOUs for Demonstration Programs/Sites** and partners **with them to provide data that show the effectiveness of the EBPs**.

34. The SLT (where appropriate) develops readiness criteria, recruitment and acceptance procedures, and **MOUs are developed for community entities** to participate in the initiative

35. The SLT develops statewide capacity (funding, staffing) for **training and supporting new Program- and Community-wide Leadership Teams** and Program Coaches

40. The SLT implements a plan ensuring that programs and **communities statewide have access to Program Coaches**,

44. **All programs, communities, and Program Coaches submit the data** agreed upon in their respective MOU

46. A process is in place for programs and **communities to enter and summarize the data elements** above as well training on how to use the data for program improvement.

Summary of key activities for 2022

Our recommendations for highlights for the Annual Report

Training for practitioners

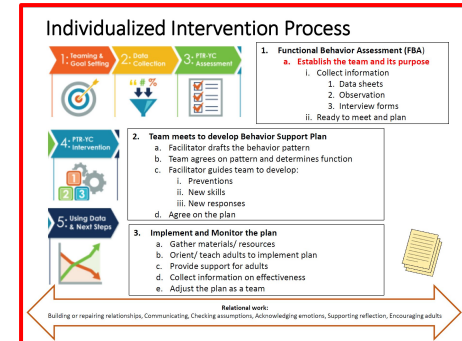

Primary Content of PM Trainings entered into the Wisconsin Registry as completed between January 1st, 2022 and December 31st, 2022
N=77 trainings

- Enhanced training content to expand **examples**, address **suspension/expulsion** factors, enhance **reflection**
 - Infant Toddler Series: English and Spanish
 - 8 Part Series: English Spanish translation underway
- Launched new **PSF trainings with materials** and data
- PMII co-training teams** of Consultant and PM Lead

Wisconsin Pyramid Model training participants by role for trainings reported in the Registry as completed between January 1st and December 31st, 2022
N=756

Coming soon- Streamlined application

Process:

1. Attend the training you want to be a trainer as a participant
2. Apply to be a trainer in a specific content
3. Interview and discuss mentor options 
4. Submit co-training with mentor “plan” 
5. Work with mentor to co-train with feedback after each session
6. Complete mentor/mentee reflection and action plan
7. Submit this plan 

Coming soon- Will update the trainers list

Wisconsin Pyramid Model Overview for Child Care Licensors (BECR staff)

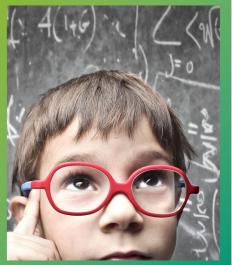

The Wisconsin Pyramid Model team has crafted a 4-part training/discussion series with Child Care Licensors in mind.

The content will provide an overview of the evidence-based practices promoted in Wisconsin Pyramid Model trainings. Discussion will offer the opportunity for licensors to consider what they may see or hear when these practices are in place, and collaborate to consider options for support when they aren't.

You will select either the November 2022 option or February 2023 option.

Wisconsin Pyramid Model

Promoting the social and emotional development of babies, toddlers, and young children

Modelo de la pirámide de Wisconsin

Promover el desarrollo social y emocional de los infantes y niños pequeños

What is Pyramid Model?
A framework for adults to promote healthy:

- Social skills:**
 - making friends
 - playing
 - solving problems
 - following directions and rules
- Emotional skills:**
 - managing strong emotions
 - labeling feelings
 - being kind to others
 - understanding the feelings of others

What does Pyramid Model look like in our program?

- We get to know families and include them in our program
- We genuinely respect and care about our children
- We talk to children about their interests and try to provide engaging activities for children that we provide a picture schedule for help children
- We use leading words to talk about our own feelings
- We gently guide children to use calm-down
- We celebrate children's success
- We work with families and others to problem-solve
- We support each other to be our best for our children
- We work hard to keep every child and us safe

How are we using Pyramid in our program?

- We have a team that leads our efforts
- We coach our teachers and coaches
- We use information to make changes

¿Qué es el Modelo de la pirámide?
Es un marco para que los adultos promuevan la salud de:

- Habilidades sociales:**
 - hacer amigos
 - compartir con los demás
 - resolver problemas
 - seguir instrucciones y reglas
- Habilidades emocionales:**
 - manejar emociones fuertes
 - etiquetar los sentimientos
 - ser amable con los demás
 - comprender los sentimientos de los demás

¿Cómo usamos el Modelo de la pirámide en nuestro programa?

- Conocemos a los niños y a sus familias en su actividades y celebraciones
- Validamos las inquietudes y necesidades de todos los niños y sus familias
- Respetamos a los niños sobre sus intereses y cómo crecen con ellos haciendo
- Proporcionamos un horario con dibujos para ayudar a los niños a saber qué esperar
- Trabaja palabras de sentimientos para hablar sobre nuestros propios sentimientos y los de otros personas
- Celebramos exitosamente a los niños para que usen estrategias para calmarse cuando sea necesario
- Colaboramos con familias y otros personas para resolver problemas
- Usamos palabras con familias y otros personas para resolver problemas
- Manejamos palabras para ser lo mejor para los niños cada día
- Intentamos ser amables para que cada niño y familia permanezca en nuestro programa

¿Cómo usamos el Modelo de la pirámide en nuestro programa?

- Formamos un equipo que lidera nuestros esfuerzos
- Entendemos a nuestros maestros y celebramos su éxito
- Usamos información para hacer cambios que mejoran nuestro programa

www.wiaimh.org/learn-about-the-pyramid-model

What is the Pyramid Model?

Wisconsin Pyramid Model programs help parents build a solid foundation and strong start for their child's lifelong learning.

In Pyramid Model programs, children learn how to identify and manage feelings and behavior, make friends, follow instructions, and engage in group activities-important skills for school readiness and lifelong success!

Pyramid Model programs provide

Safe and compassionate environments for all children

Children learn best when they feel safe and cared for. Pyramid Model programs are designed with the child in mind—from physical space to the language used in every interaction.

Effective teaching and learning strategies

Pyramid Model programs use strategies that are proven to be effective, and data shows increases in positive outcomes, decreases in challenging behavior, and therefore fewer expulsions.

Support and coaching for teachers

Just like the best athletes, teachers who care for groups of children deserve coaches to help teachers hone the skills and strategies specific to our youngest children.

Individualized intervention for kids who need it

Kids are all different and some kids need a little more help to be ready for kindergarten. Pyramid Model programs provide individualized attention to support those needs.

Connecting and Collaborating

How might the work of your organization connect to Community Wide Implementation?

Engaging with families to use practices

Positive Solutions for Families

- WI-AIMH has training, low cost materials and evaluation resources

PIWI

- Reframe PIWI as a Tier 2 “intervention” playgroup model
- Organizing a workgroup to consider:
 - Communication and Outreach
 - PIWI facilitator qualifications
 - Training and implementation coaching
 - Reflective support for PIWI facilitators
 - Resources needed
 - Evaluation/ Measuring the impact of PIWI

Teaching and Guidance Policy Development

The TAGPEC Five-Step Process

1. Assemble a Behavior Guidance Team
2. Commit to Improvement
3. Gather available discipline policy documents
4. Conduct a self-assessment using the TAGPEC
5. Develop, implement and monitor an action plan

Reflection Questions

- In small groups, discuss the first three questions of the "Behavior Guidance Team Reflection Questions."
- Purpose of these questions is to guide dialogue around experiences and perspectives on discipline, and how this affects interactions with children
- Report back
 - Content: What were some commonalities that your group members had around discipline? Differences?
 - Process: What was the process of discussing discipline like for you?

Essential Feature	Goal What is the problem, issue/task to be addressed?	Action Steps	Person(s) Responsible	Materials or Resources Needed	Timeline	Success Criteria	Date Action Step Completed
EF4 Item 17 Procedures are in place to screen children for behavioral concerns	Use a screening tool to screen children for behavioral concerns	1. Research and obtain screening tool (s)	Coach/Owner	Coach Support	2/28/23	Screening tool selected	
		2. Host staff meeting to train staff on use of tool(s)	Program Team/Coach	Guidance on training tools (4c, WECA, PM) Staff buy in Time for training		All staff trained on tool	
		3. Include screening procedures in policy	Owner/Director	Updated policy	6/1/23	Teachers are actively using tool with Adm support	
		4. Inform parents of new policy and how screening will be used	Owner/Program Team	Parent letter		Policy updated/ parents letter sent and posted	
Items 19, 20 21 The policy clearly describes primary, secondary and tertiary strategies	Include specific examples of how we achieve social emotional goals using Pyramid Model Strategies	1. Meet and discuss specific ideas/concepts 2. Update handbook	Coach/Program Team Owner/Director	Time TAGPEC Tool Coach support Updated policy Pyramid Model tools	1/31/23	Program Team chooses examples of strategies Policy updated	

Essential Feature #1: Intentional Focus on Teaching social-Emotional skills

TAG-PEC Item	Policy Example	Possible Document Locations	Connected Resources
Item #1 Policy clearly states that the goal of behavior guidance is to teach social-emotional skills to all children.	Children's development of strong social and emotional skills increases their ability to learn other academic skills (such as pre reading, math, and writing) with ease.	<ul style="list-style-type: none"> • Staff and family handbooks • Policy and procedures manuals 	
Item #2 The policy clearly describes the role of the teacher in proactively teaching all children social-emotional skills.	(Progr based emotiv give ct practic expres health; expect proble acquir appro; their in believe oport these ; descri; challer	Staff utilize their professional knowledge and expertise grounded in child development along with our program-wide use of the Pyramid Model for Social Emotional Competence framework, to make decisions around the most appropriate and individualized use of behavior guidance teaching strategies. This	Staff and family handbook Policy and procedure manual
Item #3 The policy clearly describes the role of positive and consistent interactions among teachers and children in promoting positive behavior.		The first and most important step in supporting children to learn appropriate behavior is to build nurturing and supportive relationships with them. Through relationships, children learn how to think, understand, communicate, express emotions and develop social skills.	Staff will intentionally build nurturing relationships with all children by: <ul style="list-style-type: none"> • Greeting children and families • Greeting one another

PROPOSED RECOMMENDATIONS

Curate, create and/or promote resources for using the TAGPEC review, action planning and policy revision process

- In collaboration with TAGPEC authors, curate resources for technical assistance providers to:
 - Recruit programs to participate in the TAGPEC review process
 - Assist programs to gather policy documents for review
 - Form for capturing rating and discussion during the TAGPEC review
 - Form to action plan policy priorities for revision, enhancement and updating
 - Access to policy starters to guide revision, enhancement and updating of policy
- Ensure that TAGPEC aligned policy starters also align with Wisconsin Child Care Licensing requirements. Once confirmed, determine where these policy starters can be posted and promoted for statewide access, with a strong recommendation to include in DCF ECE Quality webpages

Scaling up use of the TAGPEC process

- Incorporate TAGPEC policy review and enhancements as part of Pyramid Model program wide implementation, as guided by the external coach
- Provide an overview of the TAGPEC workgroup findings and features for the Wisconsin Suspension and Expulsion Policy workgroup
- Identify, with DCF, if other training and technical assistance providers may be funded to support use of TAGPEC to review S/E policies outside of program wide implementation. These current technical assistance efforts may have a strong connection to the TAGPEC policy process:
 - WEESN coaches supporting business practices
 - Pre-licensing policy creation
 - YoungStar quality coaching for policy development
- Ensure capacity for Wisconsin leaders to provide TAGPEC training and ongoing professional development for technical assistance providers in policy development related to teaching and guidance

Resources to support implementation of policy

- Identify training, professional development and other resources to support implementation of high-quality written policy that are aligned with the TAGPEC Essential Features and policy “starters”

Evaluation

- Ensure data collection/evaluation of the process and to determine which programs have participated and gather information on the impact of the process.

Connecting and Collaborating

*How might the work of your organization
connect to Community Wide Implementation?*

Family Child Care Expansion

Focus group determined:

- Initial need for statewide survey of FCC
- craft questions

2nd group:

- Confirmed need to support adults in FCC to enhance social and emotional well-being
- Prioritized Pyramid Model as a way to address needs
- Developed recommendations

- Respondents were asked to rate their concerns about “challenging behavior of the children you cared for in the last year”

	Very concerned
Children ages Birth-3	18.69%
Children ages 3-6	23.72%
Children age 7 or older	19.57%

- Respondents were asked to describe their responses to a child’s challenging behavior within the last year.
 - 46.43% indicated they had “worked with families to refer a child to an outside agency due to challenging behavior
 - **30.80% reported that “within the last year, a family or child left your program due to the child’s challenging behavior”**
 - Respondents indicated “approximately how many times (total) has a child been asked to go home early, not attend your program for all or part of the day and/or not attend your program for 1 or more days due to the child’s challenging behavior” within the last year (suspension)
 - 56.3% indicated 0 times
 - 32.6% indicated 1-5 times
 - 9.4% indicated 6-10 times
 - 0.9% indicated more than 20 times

	Not at all interested	Somewhat interested	Very Interested
*Receiving feedback on use of Pyramid Model practices	15%	86%	28%
*Help planning which practices to work on	18%	57%	55%
*Guide reflection in use of practices	12%	66%	52%
*Help in working with families to create and implement a plan for children with challenging behavior	15%	84%	31%
*Provide or help access professional development	16%	66%	48%
*Help write policies related to enhancing social and emotional development and/or addressing challenging behavior	19%	71%	39%
Provide resources and materials needed to use practices	15%	72%	43%
Support access to services from the community for individual children	12%	60%	56%
Provide teaching to individual children	18%	57%	55%

Expansion of PM to FCC strategic recommendations Dec 20...

Coaching

Determine credentials for Family Child Care program-wide coaches

Ensure there are FCC exemplars in the WI Pyramid Model 8 Part Series

Consider FCC cohort models of training and coaching

- Use training/technical assistance 1 Workgroup to gather pictures stra
 - Posted visual schedule, e reminders for self-regulat
- Contract with videographer to col in FCC and/or connect with other applicability to WI:
 - Using emotional vocabul practicing self-regulation of expectations
- Collaborate with other statewide t materials in follow up to support l
 - Share social and emotion families

- In areas with large numbers of Fa offering Pyramid Model 8 Part Se reflect together on their use of pra
- Consider supporting cohorts of FC same coach to create TPITOS or T support each other with implemen

- Individuals with experience in pro
- Individuals who have familiarity v Wisconsin Pyramid Model
 - Participation in the Wisco Part Series trainings (24 h
 - Participation in the Wisco training (16 hours)
- Individuals with availability to me practitioner and monthly with FCC
- Individuals who have meet reliabi (4 days of training):
 - Teaching Pyramid Infant
 - Teaching Pyramid Obser
- Individuals who have attended at professional development
- Individuals who have attended Da (hours)
- Preference for individuals who ho Health Endorsement

Determine criteria and funding for Family Child Care program-wide coaches

Create training and implementation support content for using the Family Child Care Benchmarks of Quality

Determine the process to recruit Family Child Care practitioners to implement program wide

Provide ongoing support to FCC practitioners and FCC implementation coaches

- Secure funding for FCC practitioner coaches, using these time estimates *
- * all time estimates are EXCLUDING TRAVEL:
 - ** Data suggested that regular and frequent coaching conversations and reflections are necessary to support effective changes in practices, it should be noted that coaching frequency may be variable based on the experience of the FCC practitioner and/or coach. There are 2 estimates of frequency:
 - * **EXCLUDING TRAVEL: One coaching visit per week**
 - 97 hours of direct coaching per coachee
 - 78 hours coaches preparation: planning, professional development and reporting time per for the first coachee **
 - Total of 175 hours annually for 1 FCC coachee
 - ** 32 hours additional preparation for each additional coachee

OR

- * **EXCLUDING TRAVEL: One coaching visit every 3 weeks**
 - 40 hours of direct coaching per coachee
 - 78 hours coaches preparation: planning, professional development and reporting time per for the first coachee **
 - Total of 118 hours annually for 1 FCC coachee
 - ** 32 hours additional preparation for each additional coachee

- Adapt training resources from FL/NY and Wisconsin's group care program wide implementation to create a 1-day training for FCC providers to attend with their coaches
- Ensure that Wisconsin Pyramid Model Implementation Data System has FCC practitioner slots and capacity enter and pull data reports to be used by the practitioner and program coach

- Create FCC specific marketing/ informational materials
- Adapt/create FCC Program wide application that defines expectations for FCC practitioners and their coaches, with strong consideration of a community cohort model
 - Recruit within FCC networks
 - Recruit within Pyramid Model community wide implementing communities
- Ensure capacity to match interested applicant FCC practitioners with FCC coaches
 - Explore possibility of peer coaching/ group coaching within communities

- Provide monthly FCC implementation coaches networking
- Provide consistent feedback opportunities by FCC practitioners working to implement regarding needs and adjustments:
 - Which, if any, NCPMI resources needing adaptation for use in FCC or which, if any, new resources need creating?
 - What are the adaptations needed in the PIDS to make data relevant and useful?
 - What is the utility of the Teaching and Guidance Policy Essentials Checklist to guide policy enhancement priorities?
 - What are the systems connections at the local, regional and state level that can be enhanced to ensure that FCC practitioners have

PROPOSED RECOMMENDATIONS

Network Building	<ul style="list-style-type: none"> • Develop a formal relationship between WI After School Network (WAN) and WI Alliance for Infant Mental Health/Pyramid Model (WI-AIMH/PM) to support adults caring for children birth - 6+ years <ul style="list-style-type: none"> ○ Crosswalk WAN and Pyramid Model training curricula. ○ Develop guidelines for communication to school age care providers regarding options for social and emotional training and coaching. ○ Increase communications and participation on each organization's work groups. ○ WI Afterschool Network trainers present to Pyramid Model communities of practice. ○ Pyramid Model present to WI Afterschool Network trainers.
Data & Needs Assessment	<ul style="list-style-type: none"> • Consider relaunching the school age survey in the Fall. Consider embedding questions related to addressing behavior that challenges into other surveys administered to school age care providers. • Share data from this preliminary survey with the Wisconsin Suspension and Expulsion workgroup and consider what other data being collected that can inform information needs of school age care. • Utilize the data to define the problem to solve and/or the specific need of the school age providers. • Identify elements of programmatic support that currently exist or are needed to enhance implementation of strategies learned in training. <ul style="list-style-type: none"> ○ Consider whether existing Pyramid Model resources could be useful in bridging to implementation. Consider adding information on Pyramid Model resources to the WAN website or to be available as resources in follow up to WAN training.
Pilots	<ul style="list-style-type: none"> • Pilot TAG PEC process for school age programs to review and strengthen policies to reduce expulsion and suspension. • Consider supporting connections between Pyramid Model implementation and School Age Care in communities collaborating with both WI-AIMH/ PM and WAN (e.g., Racine Unified School District, Madison community, Green Bay Area Public Schools) • Consider priorities for a pilot of TPOT to provide guidance to school age care providers supporting children ages 5 to 8.

*How might the work of your organization
connect to Community Wide Implementation?*

Social and Emotional Acknowledgement System Considerations

Social and Emotional Acknowledgement Approval Process

This process is intended to acknowledge social and emotional program level work. It may take some time to gather, review, self-assess and submit necessary documentation to be considered for the Wisconsin Department of Children and Families' Social and Emotional Acknowledgement. Please read this document carefully and review all links before applying.

STEP 1: Contact a Social and Emotional Specialist

This process is intended to be completed with a technical assistance provider who has been trained on the acknowledgement criteria and is available to assist your program team with the process.

Wisconsin Pyramid Model Programs	Non-Pyramid Model Programs
If you are a Pyramid Model program-wide implementing site, contact your Wisconsin Pyramid Model regional lead.	If you are not currently a Pyramid Model program wide implementation site, contact your Social and Emotional Specialist (e.g. a technical assistance provider trained in the Acknowledgement criteria)

STEP 2: Determine Program's Rating on Rubric

Working with your TA provider, use the [Social and Emotional Acknowledgement Rubric](#) and [Worksheet](#) to determine your program's rating and evidence (documents, photos, resources) for that rating in readiness to submit.

✓ Programs must attain a total of at least 13 points on the rubric to move forward in the process.

STEP 3: Complete Online Social and Emotional Acknowledgement Application

If your readiness review indicates a total of 13 rubric points or more, complete the [Online Social and Emotional Acknowledgement Application](#) by providing program information, inputting the rubric ratings and uploading evidence. All programs must submit a copy of their staff handbook and family handbook.

STEP 4: Application Review

A person who has been trained on the Social and Emotional Acknowledgement Rubric will review applications including ratings and supporting evidence. If the reviewer disagrees with a rating based on the submitted evidence, the program will be notified. Applications must have a total final score of 13 (as indicated in the application summary score) to move forward in the acknowledgement process. Programs that submit applications having a total final score of less than 13 will be notified with suggestions for improvement.

STEP 5: Classroom Observation

Programs who submit applications that have a total score of 13 or more will arrange for at least 2 classroom observations to be completed in their program. Classrooms will be chosen by the program.

Wisconsin Pyramid Model Programs	Non-Pyramid Model Programs
WI-AIMH staff will pull the TPOT and/or TPITOS Indicators Count Report and TPOT and/or TPITOS Red Flag Trend Report for review for 2 classrooms nominated by the program.	A Climate of Healthy Interactions for Learning and Development (CHILD) reliable observer will contact your program to schedule observations in 2 classrooms nominated by the program.

✓ Programs must have an average score of 70% across classrooms with no red flags

✓ Programs must have an overall average of .5 or greater AND Social & Emotional Learning Domain must have an average score above 0

STEP 6: Final Review and Verification

Social and Emotional Acknowledgement Rubric *With recommended changes in Highlight*

Category	Component	0 points	1 point	2 points

13+ rating= Observation

Climate of Healthy Interactions for Learning & Development (CHILD)

The CHILD is a comprehensive toolkit for improving the quality of early childhood care and education. It includes an observational measure of classroom climate; resources for teachers; and materials for early childhood mental health consultants, coaches, and others who provide support and professional development to teachers. The CHILD was developed by Yale University scientists based on decades of research, teaching, and raising our own children.

Welcome to the Pyramid Model

Recommendations

Overall Process

- 1) Use the gated process outlined in the [process document](#) that requires a program to score a minimum of 13 on the rubric before scheduling observations. This gated process will
 - a. Identify programs with interest and readiness of social and emotional professional development

Training and Technical Assistance

- 1) Training technical assistance providers on the social and emotional acknowledgement rubric will allow for
 - a. Recruitment of programs to apply for the acknowledgement that are c
 - b. Identify areas of improverer
 - c. Provide a manageable amouModel programs will need to
- 2) The review of rubric ratings and evidi represents Step 4 on the [process doc](#) for the Wisconsin Pyramid Model rev providers to complete the self-rating commitment by program leadership. assistance providers are trained to er determine whether the accuracy revi assistance providers are "reliable" on review.
- 3) For scale up, a data system is needed to track what step programs are in for self-rating on the rubric, notify the program and observer of the need for a CHILD observation. There will need to be a funded position to monitor this application data system. For phase 2 of this pilot, CHILD scores were entered into a formatted google sheet, TPOT and TPITOS observation scores were entered in the Pyramid Model Implementation Data System (PIDS) and the applications were submitted using an online application through jotform. Each of these systems worked well for the purpose of this small pilot project but a more comprehensive data system for this acknowledgement should be considered to make the process clear and efficient. This would require approximately .1 FTE to monitor applications and maintain the data system.
- 4) Given that the acknowledgement was intended as an extension of YoungStar criteria, the DCF and/or the YoungStar contractor should determine the details and the process of acknowledging programs.

- 2) When possible, verification of documents and rating on the rubric should hap allows for more in depth review of the documents and therefore more accur rubric.
- 3) When possible and applicable, the person who is helping the program to self-rating should also be the one doing the observation to maintain and grow the the program and the technical assistance provider.
- 4) It takes between 5 and 10 hours to complete CHILD observations and assist w per program and FTE will need to be allocated to complete this work.

Social and Emotional Acknowledgement Rubric

- 1) Based on the Phase 1 pilot, the advisory feels that the criteria outlined in the rubric meet the definition of high-quality programmatic work to promote social and emotional development in young children. The data from phase 2 of this pilot supports this. There is a significant difference in the rubric scores, both total and by element, between program-wide Pyramid Model programs and non-implementing programs. This is expected to some degree given that Pyramid Model implementation is an evidence-based model to support social and emotional well-being in young children. The rubric should be edited slightly, and supplemental explanatory documents should be provided to make it more clear, inclusive and achievable:
 - a. A [Supplemental Definitions Page](#) has been created to define some of the terms used in the rubric.
 - b. Consider deleting the timeline requirement for Social and Emotional Training and Culturally Responsive Practices as this requires prior knowledge of when resources will be available which is not possible for all programs.
 - c. As there are not currently any program-wide self-assessments focused on programmatic work to promote the social and emotional development of young children other than the EC-BQQ used by Pyramid Model programs, consider removing this component from the rubric.

Agency updates!
